

Consolidate Calls, Chat, and Collaboration in **One Place.**

ENTERPRISE CALLING, RUN
ENTIRELY INSIDE MICROSOFT 365

Why Decision Digital

No more separate phone system to babysit. We move your calling into Microsoft Teams—secure, enterprise-grade, and running on the platform your team already lives in. Porting, call flows, licensing, and device setup are all handled, so the switch happens without the headaches.

Our Track Record

From a simple desk-phone swap to full auto attendants—we've done all of it. We've modernized calling for clients across:

- ✓ Manufacturing & Industrial Teams
- ✓ Legal & Professional Services
- ✓ Multi-site SMBs & Enterprises
- ✓ Remote & Hybrid Organizations

Direct Routing / Calling Plans

We help you pick the right model—Direct Routing, Operator Connect, or Microsoft Calling Plans—no guesswork.

Devices & Mobile Access

Teams-certified desk phones, headsets, and mobile calling—set up and supported.

Call Routing & Features

Auto attendants, call queues, voicemail-to-email, hunt groups, and custom call flows, built to fit how you work.

Fast, Secure Deployment

Number porting, licensing, compliance, and training, handled start to finish.

Modern calling for modern teams.
Let's move your phone system to Microsoft Teams.
